CSW61 Consultation in advance of the High Level Political Forum (HLPF):

Engaging men and boys in social norms change on women's rights and gender justice

- to inform a transformative Agenda for Action to achieve the SDGs

Gender equality and women's and girls' empowerment and rights are a cross-cutting concern throughout Agenda 2030, and concrete targets have been set in the Sustainable Development Goals (SDGs). This consultation will explore how gender transformative approaches engaging men and boys can contribute to achieving these goals and targets.

Participants will collect promising practices, risks and obstacles, and program and policy recommendations for governments, UN agencies, civil society and private sector. The recommendations will inform an Agenda for Action that is to be launched at the High Level Political Forum in July 2017.
